PROFESSIONAL SUMMARY

Cybersecurity undergraduate with a strong foundation in penetration testing, ethical hacking, and secure coding. Currently pursuing a Bachelor's degree in Computer Science with a specialization in Cybersecurity at Alexandria National University.

EDUCATION

Alexandria National University (ANU)
B.Sc. in Computer Science – Cybersecurity **CGPA: 3.03**

Alexandria, Egypt
2022 – 2026

CERTIFICATIONS

AWS Cloud Architecting, AWS Cloud Security Foundations, Frontend Web Development – ITI (120 hours), CCNA: Switching and Routing – WE (120 hours), Cybersecurity for Beginners – MaharaTech

EXPERIENCE

CIB Summer Program

2025

Summer Intern

Alexandria, Egypt

- Participated in training sessions on banking operations, digital transformation, and financial security.

CCNA: Switching and Routing – WE

2022

Networking Intern

Alexandria, Egypt

- In-depth training on Cisco networking including switching, routing, and troubleshooting.

Ethical Hacking – Netacad

2022

Cybersecurity Trainee

Online

- Learned fundamentals of penetration testing and ethical hacking techniques.

Cybersecurity for Beginners – MaharaTech

2022

Cybersecurity Trainee

Online

- Studied basics of cyber threats, attacks, security tools, networking, and cloud security.

Frontend Web Development – ITI

2022

Web Development Trainee

Alexandria, Egypt

- Completed 120 hours of frontend web development training including HTML, CSS, and JavaScript.

PROJECTS

Hospital Management System | PHP, SQL, OAuth, MFA, RBAC

May 2025

- Built and secured a full-stack hospital app with RBAC, MFA, social logins, and penetration testing.

Travel Booking System | HTML, CSS, PHP, SQL, OAuth, MFA, RBAC

May 2025

- Developed a secure travel booking platform with admin dashboard, MFA, and OAuth login support.

Real-Time Chat App | Flutter, Firebase

Jan 2025

- Developed a real-time mobile chat app with profiles, dark/light mode, and Firebase backend.

University Network Simulation | Cisco Packet Tracer

May 2024

- Designed VLANs and routing for a multi-building campus network simulation.

Car Rental Platform | HTML, CSS, PHP, SQL

Jan 2024

- Built a vehicle rental/purchase app with user registration, listing, and booking system.

TECHNICAL SKILLS & LANGUAGES

Programming Languages: C#, C++, Python, Java, HTML, CSS, JavaScript, R, Flutter

Software Development: OOP, Data Structures, Web Development

Cybersecurity: Cybersecurity Fundamentals, Network Fundamentals, Ethical Hacking, Security Analysis

Networking: TCP/IP, Cloud Security, Network Architecture

Tools & Technologies: Bash, Cisco Packet Tracer, Security Frameworks, Penetration Testing

Soft Skills: Problem Solving, Analytical Thinking, Communication

Languages: Arabic – Native — English – Strong
